

Thank You Vitec

Edu Fun 2024

Thank You

I would like to take this opportunity to express my deepest gratitude for your generous funding of the internship program this year. Your support not only enabled the success of eight interns to teach reading English to disadvantaged children but also had a profound impact on the participant's personal and professional growth, myself included.

This internship has been an incredible life changing experience for me. I am certain that without this opportunity I might have spent the year without a meaningful path as I was unsure of what I was going to do or where to focus my energy. Instead, I was very privileged to be part of a program that allowed me to make a real difference in the lives of children while also developing invaluable skills and gaining clarity about my own personal future goals.

Your investment made it possible for me to contribute to a cause I am passionate about, helping children improve their reading skills, and opening doors for them to a very bright future. At the same time, I was given the chance to grow as an individual that has

built my self-esteem, gained work experience and explored new areas of personal and professional interest that can help me as well in the future.

This year has been a very interesting journey of growth and purpose, and it wouldn't have been possible without your support. I am deeply and immensely grateful for this life changing opportunity and deeply inspired by the commitment Vitec has shown to empowering both communities and individuals.

Thank you once again for believing in Edu Fun and making this program possible. The impact of your generosity is immeasurable, and I will carry the lessons and experiences from this year with me for the rest of my life.

*With heartfelt thanks,
Nicole Jennifer Moyo*

Thank You

I would like to express my sincerest gratitude to your organization for the continued support that you have shown to the Edu Fun/Read for Africa tutorship programme.

Your financial support has ensured that the programme runs smoothly and has encouraged the tutors to have a passion for giving back to their Diepsloot community through teaching the young children how to read and write in the English language.

Your generous support has also encouraged the tutors to develop their leadership skills and to serve as role models to these young learners. It would have not been possible to make an impact on the learners from disadvantaged backgrounds without your consistent support. These learners have been motivated to dream beyond their circumstances and to know that they can have a better tomorrow through education.

The Vitec sponsorship has also had a substantial impact in my life, for instance, it has given me a sense of purpose as I did not know what was next for me after completing my tertiary studies last year. As much as I have been a tutor, I have also been a student to my learners and colleagues as I have learned to be more empathetic to others, and have gotten the chance to enhance my communication skills and ability to work in a team toward a common goal.

Once again, thank you for your generosity.
We truly appreciate your participation and contribution to making this tutorship programme a success.

Sincerely,

Kamogelo Mooketsi

Thank You

I wanted to take a moment to express my heartfelt gratitude for the financial support you have provided through EduFun. Without your generous funding, we would not be here, thriving and making a difference. Your support has been nothing short of a game-changer, helping us learn new skills and work towards a more literate world filled with wise leaders.

Your funding has been a lifeline during my application process, helping me get through the month and even save for future plans. The skills I have acquired through tutoring and assignments have been invaluable, setting me up for a bright future both academically and mentally. Plus, it has been a huge relief to have one less thing to stress about—financial worries can really cramp a student's style!

Thank you for making such a significant difference in our lives. Your support is not just appreciated; it is celebrated!

Warm regards,

Kwazi

Monday Group Lesson: On your left you can see us during our normal Monday group lesson. I was feeling down, but the learners made an incredible effort to cheer me up. Their kindness and enthusiasm were truly heartwarming and a testament to the wonderful bond we've

Thank You

I am writing this letter to express my deepest gratitude for the opportunity given to me to serve as a reading tutor under your sponsorship. As a result of your financial support, Edu Fun has been able to run the tutor programme offering us the opportunity to work with learners with the aim to gain experience as well as helping learners to read.

I am grateful for the support as I have improved a lot in my written and verbal communication skills, I have also gained new skills aligning with the career path I want to partake in. These skills include administration and patience fostering the care and understanding the diverse learning needs of children. Being part of the programme has also enhanced my computer literacy skills and team management as I was one of the leaders for a certain project.

Thank you once again for the opportunity of being able to part of this program without any financial strain. It has been an honour to be part of this initiative.

Yours faithfully,

Precious

Thank You

Oh Vitec Vitec, how grateful I am for you. If it weren't for you, I would still be at home feeling unfulfilled. Before I joined the programme, I was just sitting at home. Well, it really wasn't just sitting because I am studying teaching online, but I still felt as if I had no purpose. Most of my peers were at university and getting the chance to interact with people on a daily basis. People have their own communities that provide them with support in universities. I did too, but it was an online community. I really felt all alone in my academic journey. I never realised how vital human interaction is in our lives until I started studying online.

Thanks to the Vitec programme, I was able to get that human interaction that I so desperately needed. I've found my own little community at the hub, and I feel great knowing that I have people to complain to about school. I developed so many new skills at the hub, like being adaptable and it turns out I'm pretty responsible. I have always been responsible, but I guess being at the hub enhanced that skill, making me a good leader. I never liked the idea of being a leader, but it actually feels great.

Being able to apply some of the things I learned about with the children has been beneficial. The smiles on their faces when they get something fills my heart with joy. The letters that I get saying how much they love me will always be the highlight of my day. Being a part of this programme has allowed me to go to different places and I even flew on an airplane for the first time. I have had a great journey thus far and I hope that with your support again next year, you'll take me to even greater heights.

*Kind regards,
Kuhle*

With Gratitude:
Your Support
Shapes Our Future
